² These General Terms and Conditions are adopted in accordance with the Code of Obligations (CC), the Act on Electronic Commerce on the Market (ZEPT), the Consumer Protection Act (ZVPot) and the Personal Data Protection Act (ZVOP-1). The following regulations and general acts apply to the carriage of passengers and luggage on SŽ lines: the Railway Transport Act (ZzEP), the Railway Transport Contracts Act (ZPPŽP), the Rules of Procedure for the Internal Order on Railways, Regulation (EC) No 1371/2007 of the European Parliament and of the Council on rail passengers' rights and obligations, Regulation implementing Regulation (EC) on rail passengers' rights and obligations, General Conditions of Carriage of Passengers by Rail (GCC-CIV/PRR).

3.1 SERVICE OFFER

SŽ-PP provides and organises various passenger rail transport services in Slovenia and abroad.

The basic services are listed on the SŽ-PP website.

The company also organises a number of time-specific and occasional services, which are published on the Slovenian Railways - Passenger Transport website.

The website also lists various services offered independently as a trip tip or as a service in cooperation with partner companies on the Trips - Slovenian Railways website.

Passengers must ensure they have an appropriate ticket before boarding the train.

The Provider shall not be liable for any failure of online sales or sales via the mobile app where such failure is caused by user ignorance, misuse of online sales, network or power failure or other technical malfunctions. In such a case, the passenger will be treated as a passenger without a ticket (subject to a surcharge in accordance with the PT).

The purchase of tickets on board the train is subject to special conditions and may involve an additional surcharge.

It is also the passenger's responsibility to check the contents of the ticket before purchasing or confirming the purchase of the ticket, including information on the boarding and alighting stations and the suitability of the journey, in particular the times, the travel time and the time for changing trains at each station (in the case of transfers).

3.2 PURCHASE IN THE ONLINE SHOP

The SŽ-PP online shop enables the purchase of:

- one-way and return non-personal route-specific and flat-rate tickets for adults and children under 6 and children aged 6 to 12, as well as Tourist Weekend tickets for all types of trains;
- flat-rate IZLETka tickets; and
- weekly, monthly, semi-annual and annual season route-specific and flat-rate tickets; and
- IJPP³ tickets.

The online shop app is divided into 4 sections (tabs), which differ according to the type of ticket on which the purchase or use process depends:

- The "Single" tab allows the purchase of one-way, return and Tourist weekend tickets. After successful payment, the user receives a purchase receipt, which is used to collect the ticket from the conductor at the mobile terminal on board the train.
- The "Term/Flat-rate" tab allows the purchase of a flat-rate ticket and a City Day Ticket. After successful payment, the passenger receives a receipt, which is not a ticket. On the basis of this receipt, the passenger can collect the ticket from the conductor – on board the train at the mobile terminal.
- The "IJPP on a card" tab allows the purchase of IJPP products on a contactless card. The app allows the purchase of subsidised and unsubsidised tickets. In case of purchase of a subsidised ticket, authorisation with SI-PASS is required. After successful payment, the passenger receives

an invoice, while the ticket is uploaded to the contactless card via a payment slip within 2 hours of the purchase at the latest.

- The "SZ on a card" tab allows the purchase of SŽ's route-specific season and flat-rate products (weekly, monthly, semi-annual and annual tickets). After successful purchase, the user receives an invoice. The ticket is transferred to the contactless card no later than 2 hours after the purchase is made.

Before purchasing or confirming the purchase of a ticket, the user must carefully check the contents of the ticket himself.

The online purchase of a season ticket will be recorded on the contactless ticket card at the first validation after a maximum of 2 hours, so the user must purchase the season ticket in due course before the journey.

The procedure for purchasing a ticket in the online shop is available in the [instructions](#) on the SŽ website.

3.3 PURCHASE IN THE »GREM Z VLAKOM« APP

The »Grem z vlakom« mobile app enables the purchase of:

- one-way and return non-personal route-specific and flat-rate tickets for adults and children under 6 and children aged 6 to 12, as well as Tourist Weekend tickets for all types of trains;
- flat-rate IZLETka tickets; and
- weekly, monthly, semi-annual and annual season route-specific and flat-rate tickets.

The »Grem z vlakom« mobile app also offers the following services:

- timetable and fare information for the selected route;
- information on delays and traffic emergencies (maintenance works, rail replacement services);
- setting of favourite travel routes; and
- other services in accordance with the terms of use of each service.

Before purchasing or confirming the purchase of a ticket, the user must check the content of the ticket carefully.

A ticket purchased via the mobile app is saved on your mobile phone in the »My tickets« tab of the »Grem z vlakom« app, in one of two tabs, depending on the type of ticket:

- The »Mobile App« tab allows the purchase of tickets for which the passenger receives an Aztec code after purchase, which is validated on board the trains. After purchasing these tickets, the user always receives an Aztec code and a ticket ID which allows validation on board the train. The Aztec code is only displayed on the day the ticket is valid.
- The »Contactless card« tab allows the purchase of SŽ's route-specific and flat-rate products (weekly, monthly, semi-annual and annual tickets), and IJPP products (single, single weekend, daily, daily weekend, three-day, weekly, monthly, and annual tickets) on a contactless card. The ticket is transferred to the card via an execution list within a maximum of 2 hours.

The procedure for purchasing a ticket in the mobile app is available in the [instructions](#) on the SŽ website.

A customer who has purchased a ticket via the online shop or the mobile app must have a valid ticket when boarding the train, otherwise he/she will be considered a passenger without a ticket.

4 PRICES

Ticket prices are published in the timetable finder on the [Slovenian Railways - Passenger Transport \(sz.si\)](http://www.sz.si) website.

The fares are in accordance with the SŽ-PP Passenger Tariff. They become valid after approval or consent is obtained from the Ministry of Infrastructure.

All ticket prices displayed in the online shop and mobile app are in euros and include value added tax (VAT).

Tickets are issued at the price valid on the day of purchase.

5 PAYMENT METHODS

Payment can be made by:

- VALU.

The use of VALU as a payment method via the VALU app or VALU Moneta (for non-registered VALU users) is available to users of services provided by Telekom Slovenije and A1. After making an online or mobile purchase with the VALU payment method, the process of obtaining a ticket is initiated on a computer or mobile terminal. After purchasing the ticket, the user receives an e-mail notification of the purchase.

SŽ-PP reserves the right to refuse the purchase if the user is not entitled to a specific ticket, if the IJPP card he/she wishes to top up is cancelled or permanently inactive, withdrawn or blocked.

6 RIGHT OF WITHDRAWAL
